

Minor Home Business

Handout #45-A Revised 8/23/04

What is a Home Business?

Home businesses are commercial activities carried on within a dwelling by a member or members of the family who occupy the dwelling. The home business is secondary to the use of the dwelling for living purposes, and the residential character of the dwelling must be maintained.

In Clark County, home businesses must be owned and operated by the resident owner or renter. If more than one home business is operated out of the home, all businesses in combination must not exceed the applicable standards. Uses that are otherwise listed as permitted outright, a conditional use, or a use subject to review and approval under the zone in which the property is located, cannot be approved under the home business ordinance.

Do all Home Businesses need a Home Business permit?

If your business has a minimal impact to the neighborhood, and limited to the following standards, a home business permit from the county is not required. **However, a building permit may be required:**

In urban areas:

- A maximum of 25% of habitable floor area or 1,000 square feet (whichever is less) of the dwelling may be used for the business;
- No use of accessory structures for the home business;
- Maximum of 2 employees who come to the home business location, with one parking space on-site for each non-resident employee;
- No customers that come to the home business location;
- No outside storage;
- No heavy equipment; no more than one home business-related vehicle;
- No on-site retail sales; and,
- No more than one sign related to the home business of 2 square feet or less.

In rural areas:

- A maximum of 25% of habitable floor area or 1,000 square feet (whichever is less) of the dwelling may be used for the home business;
- Use of up to 400 square feet of an accessory structure;
- Maximum of two employees who come to the home business location, with one parking space on-site for each non-resident employee;
- No customers that come to the home business location;
- No outside storage;
- No heavy equipment; no more than one home business-related vehicle; and, no on-site retail sales; and,
- No more that one sign related to the home business of 2 square feet or less.

Note:

- There is no minimal lot size for exempt home businesses; and,

- Two or more exempt home business on the same parcel require application for a Type I or II Home Business permit if the combined features of each business exceed the above standards.

What is the difference between a minor and major Home Business?

The review process depends on whether you are in the urban or rural areas, and the extent of the impacts the business may have on the neighborhood. The distinctions are summarized below:

Minor Home Business Urban	Minor Home Business Rural
A maximum of 25% of the gross floor area or 1,000 square feet (whichever is less) of the dwelling may be used for the home business	A maximum of 25% of the gross floor area or 1,000 square feet (whichever is less) of the dwelling may be used for the home business

Note: On-site retail (other than incidental), adult entertainment enterprises as defined in Clark County Code, Chapter 5.45, automotive recycling material facilities, and in urban areas, new facilities for servicing motor vehicles are prohibited.

Are there other permits that may be required?

Building Permit

Before the home business owner applies for a Home Business permit, they should meet with a Customer Service Specialist at the Clark County Customer Service Center to determine if a building permit will be required.

Under the International Building Code (IBC), once the area utilized for Home Businesses exceeds 500 square feet, it is considered a change of use and, therefore, a building permit is required.

Proposed structural changes will require application for a building permit unless it falls under the following exceptions:

- Minor construction and alteration activities for which the total valuation does not exceed fifteen hundred dollars (\$1,500), provided, it does not affect any structural components or reduce existing egress, light, air and ventilation conditions. This exemption does not include electrical, plumbing or mechanical activities which will require a separate permit.

Once the areas used for a home business exceed 500 square feet and employees or customers come to the site, parking for the disabled is required in accordance with the "Uniform Federal Accessibility Standards."

For more information call 397-2375, ext. 4568.

Fire Marshal

Approval from the Fire Marshal will be required If your home business is a non-office type of work (e.g., wood working or other types of manufacturing), Call (360) 397-2375, ext. 3396 for more information.

State Electrical (i.e., Labor & Industries)

The State conducts all electrical plan reviews and inspections for the county. For all electrical work, call (360) 896-2300.

Critical Areas

If you are proposing to construct new buildings or commence home business activities within an environmental critical area, additional permits may be required. Such critical areas include: shoreline management, geo-hazard, floodplain, wetland and habitat. Contact the Customer Service Center at 397-2375.

Health Department

If the home business will be utilizing a septic or water well system, you should consult with the Health Department. Call (360) 397-8428 for more information.

Is outside storage of home business related items allowed?

Outside storage is not allowed under the Minor Home Business regulations.

Are there additional requirements if I live on a private road?

Yes. If you are applying for a minor home business on a private road, you should attempt to get the signatures of all property owners who share the private road, agreeing that the safety and maintenance impacts associated with the home business are adequately mitigated (see

Attachment A-4). If you are unable to get all the signatures, you will be required to apply for a Type II review.

Under the Type II review process, the county will visit the site and may require certain roadway improvements to ensure dust, noise, trip generation, and road safety and maintenance are adequately addressed.

What is the application process for a Type I Home Business permit?

Staff at the Customer Service Center, located at the Public Service Center, 1300 Franklin Street, 1st Floor, Vancouver, Washington, will assist with the application process.

For a Minor Home Business (and those businesses on private roads that also submit a neighborhood agreement), the applicant must submit a completed and signed application form, "Applicant Agreement and County Decision" form, and submit payment for the required fee. Application for minor home businesses are normally issued over the counter, but may take up to 21 calendar days to be issued after submittal at the Customer Service Center.

For a Minor Home Business that is located on a private road and a neighborhood agreement has not been submitted, the application will be reviewed under a Type II process. This process requires all items listed on the "Home Business Private Road Access Review Submittal Requirements" and fee payment be submitted to the Customer Service Center. A decision on the application will be made within 78 days from the date the application is deemed Fully Complete.

What if I didn't submit all of the required information?

Minor Home Business applications (and those on private roads with a neighborhood agreement) will be checked upon submittal to ensure the application is complete. All incomplete submittal packages will be returned to the applicant.

For Minor Home Business on private roads without a neighborhood agreement (i.e., Type II review), the County conducts two application checks to ensure that applications are complete before staff begins their development review process. Prior to accepting your application over the counter, the Customer Service staff will conduct a "**Counter Complete**" review of your submittal packages. This initial review ensures that **all items with a bold underlined space** listed within the "Home Business Private Road Access Review Submittal Requirement" have been submitted before accepting your application (see Attachment A-5).

Once your application is accepted, the original submittal package is routed to our review staff. Staff conducts a second completeness check, known as the "**Fully Complete**" review. This more detailed review ensures that **all items with a box to the left** listed under the numbered headings of the attached submittal requirements have been submitted. As an example, does the "Site Plan" include the "Location and dimensions of the private road?"

If required items are missing from your original submittal, you will receive a letter of "**Not Fully Complete**," with a list of the missing items. If you have not submitted the requested information within 30 days of this written request, staff will return your application and refund the application fee, less the processing costs incurred to date.

If **all** of the submittal requirements have been met, you will receive a "Fully Complete" determination letter and the technical review will begin.

What kind of public notice is provided?

There is no public notice for a Minor Home Business, unless it is located on a private road and a neighborhood agreement has not been submitted.

For a Minor Home Business that is located on a private road and a neighborhood agreement has not been submitted (i.e., Type II review), public notice describing the proposal will be mailed to property owners within a 300' radius of the project (if within an urban growth boundary) or a 500' radius of the project (if outside an urban growth boundary), the area neighborhood association representative, and to the applicant. Notice will also be posted in the Columbian newspaper.

The notice will invite written comments to be submitted within 14 calendar days of the date of the notice. Copies of any written comments received in a timely manner will be sent to the applicant. The applicant may submit a written response to the comments received within 14 days from the date the comments are mailed to the applicant.

Can the decision be appealed?

The Responsible Official's decision may be appealed to the County Hearings Examiner by the applicant or any person or group. An appellant must submit an appeal application and **\$1070** fee within 14 calendar days after the written notice of the decision is mailed.

What are the Minor Home Business Application fees?

The following fees apply to home business applications.

Minor Urban and Rural Review, and those with private road access/ neighborhood agreement	\$90
Minor Urban (Type II Review) with private road access/ no neighborhood agreement	\$1,292
Plus: Minor Home Business if application received after code enforcement action has been initiated	\$90
Fire Marshal (if applicable)*:	\$297

* Approval from the Fire Marshal will be required If your home business is non-office type of work (e.g., wood working or other types of manufacturing).

Please Note:

- Approval of this application does not constitute approval of modification to existing driveways or construction of a new driveway. Construction of a new driveway or modification to an existing driveway requires a "Driveway Approach Permit," which is issued at the Customer Service Center; and,
- This handout is not a substitute for county code. For more detailed information, please refer to Clark County Code Section 40.260.100 Home Businesses.

Home Business Definitions

Activity area - See home business activity area.

Gross Floor Area - includes basement and attached garage, but does not include an unfinished attic or a detached garage.

Heavy equipment - means any free-standing piece of equipment with a gross vehicle weight of 15,000 pounds (as defined by the manufacturer) or greater that is used for the purpose of a home business and that is typically transported to a job site by a vehicle. The term shall include equipment that is motorized or non-motorized, stationary, or self-propelled. Tools or pieces of machinery that are permanently located within an accessory structure shall not be counted as heavy equipment for the purposes of this section. 3. Home business. Home business means a business in conjunction with a residential use which results in financial remuneration from a product or service and is conducted by at least one resident occupying the dwelling on the subject property.

Home business activity area - (hereafter activity area) means a defined outside area used in conjunction with a home business that includes all outside activities associated with the home business, including, but not limited to parking areas used for business vehicles and equipment, areas used for loading and unloading, worker or client parking areas, and areas used for outdoor storage.

Incidental retail sales - means retail sales that are ancillary and secondary to the home business, such as selling shampoo from a home hair salon.

Outdoor Storage - means the outdoor holding of any materials or merchandise, whether covered or uncovered, used or associated with a home business.

Trailer - is a non-motorized vehicle that is licensed for road use that is used exclusively, or in part, for the purpose of a home business. Trailers equipped by the manufacturer as combination tractor-trailers shall not be counted as a separate trailer, but shall be considered together with their tractor a part of a single vehicle.

Vehicle – (for the purposes of this ordinance) means any motorized vehicle licensed for road use that is used exclusively, or in part, for the purpose of a home business. A vehicle equipped by the manufacturer to serve as a combination tractor-trailer shall be counted as a single vehicle.
